

The results is a coffee prepared quickly by means of established schedules.

Pressure preparation method that allows one to easily obtain different coffee recipes.

How to do it?

Dose

Fill the tank with soft mineralised water (approximately 100ppm) and the hopper with coffee beans.

jura

WE6

Medium Roast
Fine Grind

Adjust

As the coffee is grinding, one can modify the intensity of the coffee for the different recipes by pressing the corresponding buttons. In the programming mode you have the possibility to make permanent settings for all products.

Prepare

Place a cup under the coffee spout. Press the button «Coffee» and the preparation of the drink will start. The pre set amount will pour into the cup and will stop automatically when it reaches the programmed volume.

Serve

Once the machine has completed the extraction, the coffee is ready to serve.
